PROFESSIONAL SUMMARY

Motivated Frontend Developer fresher with a Diploma in Web Programming and hands-on experience building responsive, user-friendly web applications using HTML5, CSS3, JavaScript, and React. Familiar with WordPress theme customization, PHP, and MySQL database integration. Developed and deployed personal projects including a live portfolio site. Seeking a Frontend Developer Intern, Web Developer Intern, or WordPress Developer Intern role to apply and grow skills in a professional environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React (Basic), Responsive Web Design

Backend: PHP (Basic), MySQL, SQL

Tools: Git, GitHub, VS Code, WordPress, Chrome DevTools

PROJECTS

Personal Portfolio Website

HTML5, CSS3, JavaScript, GitHub Pages | [Live](#) | [GitHub](#)

- Built a fully responsive, multi-section portfolio site from scratch using HTML5, CSS3, and JavaScript, with CSS animations and mobile-first Flexbox/Grid layout.
- Achieved cross-browser compatibility across Chrome, Firefox, and Edge; deployed live via GitHub Pages with version-controlled Git commit history.

WordPress Business Landing Page

WordPress, Elementor, PHP, MySQL, CSS

- Developed a business landing page with a custom WordPress child theme, modifying PHP template files and custom CSS; configured WPForms and integrated Google Maps.
- Optimized images using compression and lazy loading to improve page performance; migrated site to live cPanel hosting from a local XAMPP environment.

Mumbai Tiffin Service

React.js, JavaScript (ES6+), HTML5, CSS3 | [GitHub](#)

- Built a React-based web application for a local tiffin (meal delivery) service, featuring a dynamic menu listing, order flow UI, and component-based architecture.
- Implemented reusable React components with useState hooks for cart and order state management; designed a mobile-responsive layout using CSS Flexbox.
